CHI-CHI-HA-ERH ARSENAL NO 127, CHI-CHI-HA-ERH, CHINA

This report, prepared in response to DIA requirement DIAAP IR5-2, is part of a series that will cover selected industrial installations in China.

The Chi-chi-ha-erh Arsenal No 127 is situated approximately 0.5 nm west of the Chi-chi-ha-erh railroad yards and shops at 47-20N 123-59E. Approximately 10 acres in area, the

plant is wall secured and road and rail served.

No finished products could be identified at the plant; however, the facilities present indicate the plant could be used for specially cast items such as grenades and projectiles. The level of production activity appears to be low.

Major components of the plant as shown on Figure 2 are described in Table 1.
